RPA Practice Challenge 4

Enter this link https://www.dominos.com.pe/es/

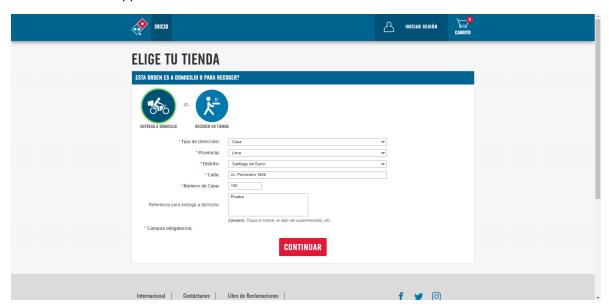

Go to the "Ordenar en linea" section.

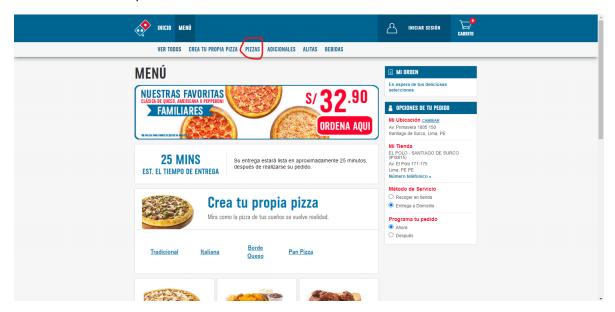

Click the "Entrega a domicilio" button.

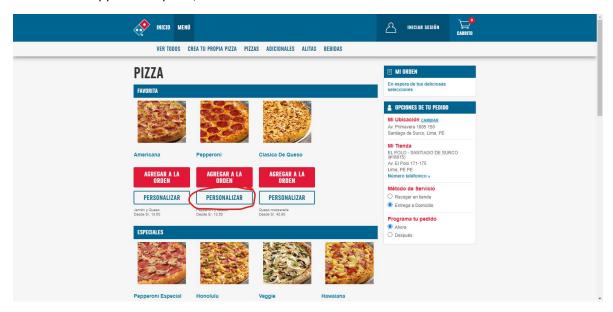

Fill the form as it appears in the screenshot.

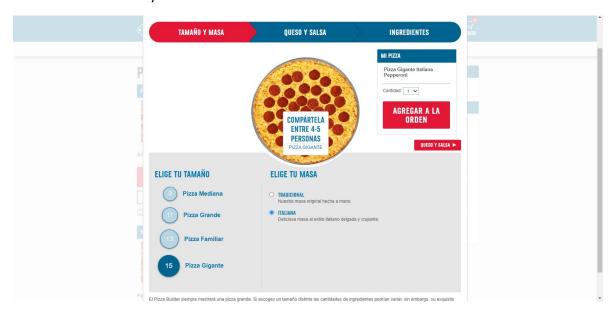

Select the "Pizzas" option.

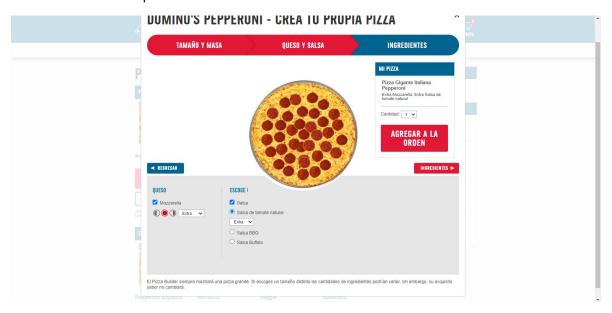

Under the "Pepperoni" option, select "Personalizar".

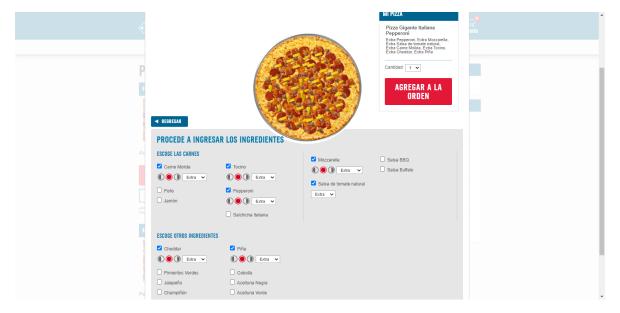

In the popup that will appear, select "Pizza Gigante" in "Elige tu tamaño" and "Italiana" in "Elige tu masa" in the "Tamaño y Masa" tab.

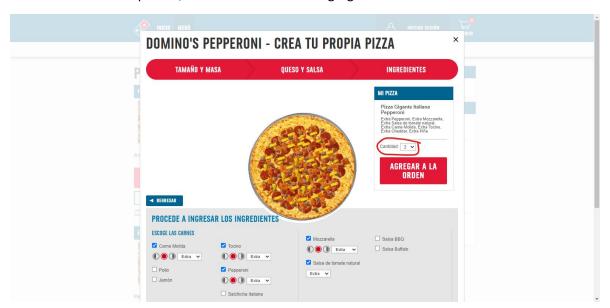

In the "Queso y Salsa" tab, select "Extra" in the "Mozarella" dropdown and "Extra" too in the "Salsa de tomate" dropdown.

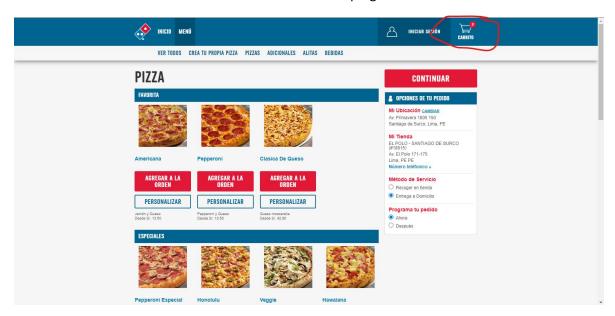

In the "Ingredientes" tab, check all the options that appear checked in the screenshot below and make sure the dropdown values also match.

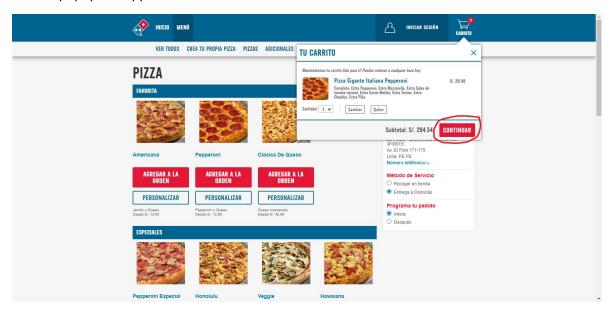

In the "Cantidad" dropdown, select 2 and click the "Agregar a la orden" button.

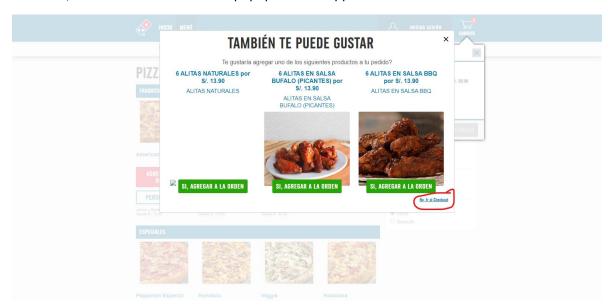

You will return to this screen. Click on "Carrito" at the top right corner.

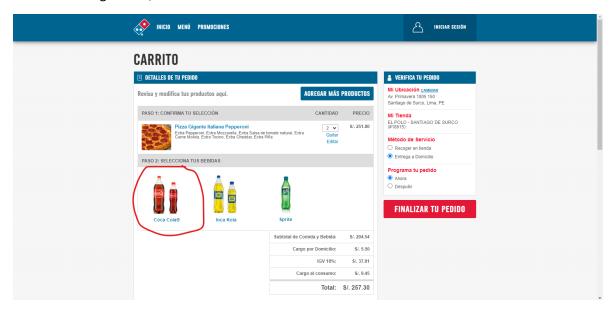

A small popup will appear. Click on "Continuar".

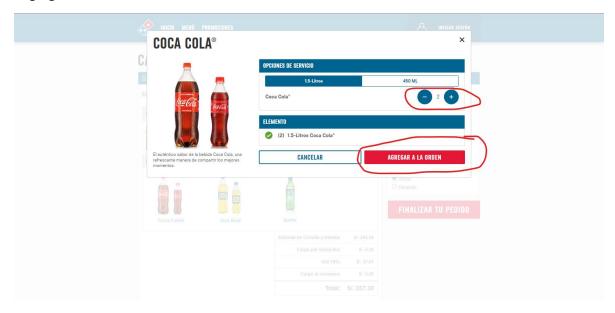

Click "No, ir al checkout" on the new popup that will appear.

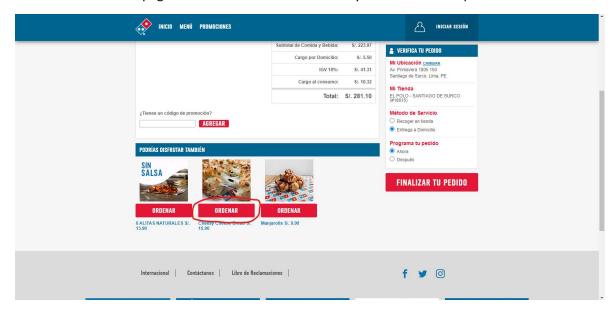

In the following screen, click on "Coca-Cola" in the "Selecciona tus bebidas" section.

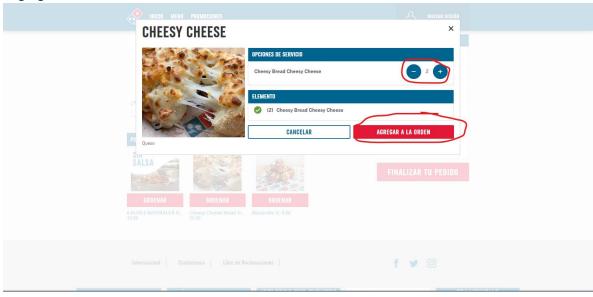

On the popup that will appear, click the plus button until the value is set at 2 and then click "Agregar a la orden".

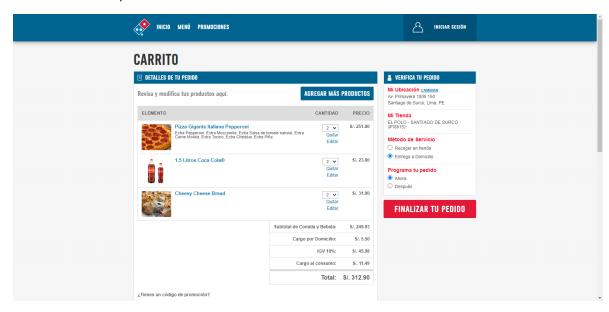

At the bottom of the page click "Ordenar" for the "Cheesy Cheese Bread" option.

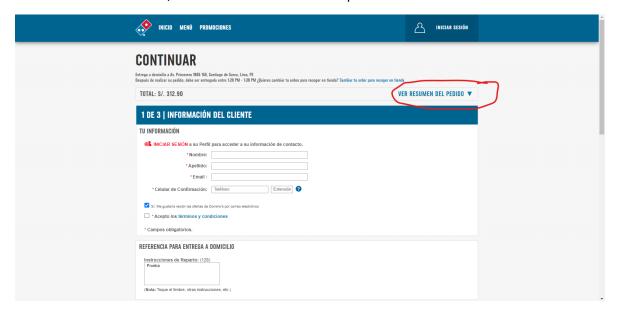

A new popup will appear. Increase the quantity to 2 by clicking the plus button and then click "Agregar a la orden".

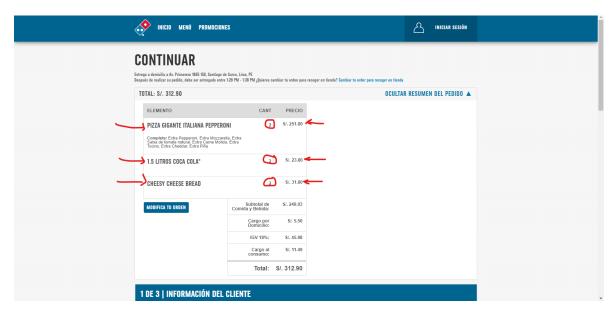

Click "Finalizar tu pedido".

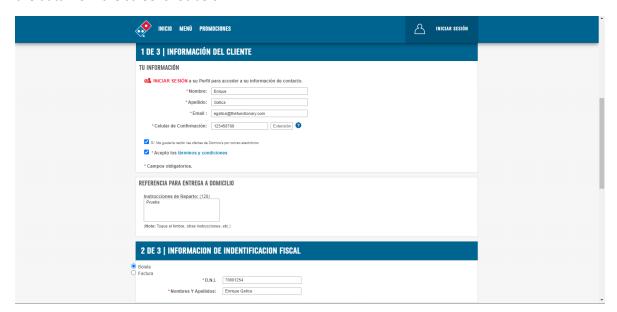

In the "Continuar" screen, click the "Ver resumen de tu pedido" button.

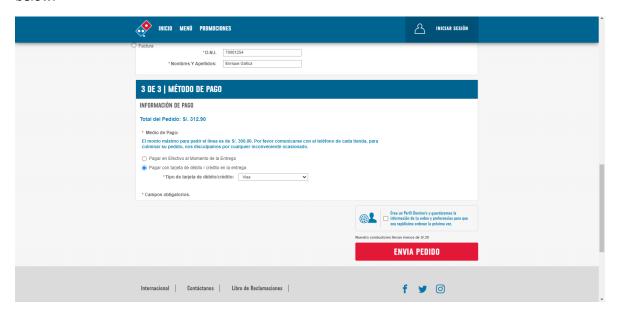

Get the name, quantity and price of each of the products you ordered and with the data create an Excel file with a sheet called "Pizza Order". Write the values to that sheet.

Fill the information from "Información del Cliente" and "Información de Identificación Fiscal" with the data from the screenshot below.

Repeat the same for the "Método de pago" section with the information from the screenshot below.

After doing this, take an screenshot of the page with the name "Pizza_Form" plus the date and time in which you took the screenshot and save it. **DO NOT CLICK THE "ENVIA PEDIDO" BUTTON SINCE IT WILL SEND A REAL ORDER TO THE PIZZA STORE.**

Your solution should work both locally and in Robocloud.
